I am Alejandro, welcome to my programme for summer 20011/12 in the southern hemisphere. Or should I say winter for you in the north. In Argentina the sun will be shining and the weather warm. So forget the cold and the idea of skiing and come an join me in the pursuit of the perfect goal. Whether you want to play, or learn to play polo, like horses and want to ride, or simply enjoy nature and want to relax in our beautiful countryside, we can offer you wonderful holiday you will remember long after you have left.
